

Small Changes, Big Savings

Up to 17,000 gallons in annual water savings per home

As of January 1, 2024, updated efficiency code requirements incorporating the latest water efficient products will apply to all newly constructed and newly renovated residential properties within the Metro Water District's 15-county Atlanta region. These products are readily available, similar in price, and can save up to 17,000 gallons of water per home annually.
